SPECTS ARE FAVORABLE

ornia Expected to Ship About 00 Carloads of the Fruit This Season—Advance in Cereal Foods.

oranges will begin arriving on this t in about two weeks and a good is expected. The first receipts will bly be from Rocklin, Placer County, Cal., y followed by oranges from the Oroville t. The first carlot shipments will be Porterville. A. H. Nattinger, president of alifornia Fruit Agency, has given out the wing interview on citrus fruit prospects: to the coming crop of citrus fruits in ornia I have to say that the crop is look- exceedingly well; the season has been fa- ble so far in every particular. As to the e, any estimate is a mere guess, as it is ically impossible for anybody at this date y what the crop will be. Transportation e and others have estimated it at 30,000 ads. My impression from talking with a many of the growers is that this figure t far out of the way. However, we have to reckon with the elements, as well as matter of sizes. If the crop should run to sizes it would increase the number of ads by thousands. One thing may be y said, however, and that is unless the should be damaged by storm, there will be ty of California oranges for everybody. t goes without saying that a crop of that racter cannot be marketed to the entire faction of everybody concerned. We ven- however, to claim as a result of the ncy's operations, many thousands of dollars e put into the pockets of the orange grow- of California, that never would have hed them had the agency not been formed. also safely claim that where we were able get the fruit into market in sound condition, brought prices generally satisfactory to the wers.

With reference to inquiries as to what per- tage of the crop the California Fruit Agency handle, I should say that until about No- mber 1 it will be impossible to answer this h accuracy, because contracts are being de every day, adding to the holdings of the ncy. Since the organization of the agency have handled 75 per cent of all the citrus its shipped from California. It will be under- od, of course, that much of this had to be ained by contract after April 1, the percen- e of our holdings constantly increasing. It my belief that by November 1 we shall have m 85 to 90 per cent of the citrus crop under r control."

APPLE-GROWING FOR REVENUE.

igh Prices Open the Eyes of Lane County Farmers.

EUGENE, Oct. 12.—(Special.)—The apple op of this county has heretofore been much glected and has hardly been considered a op from the standpoint of bringing in a evenue. Apple trees have been allowed to row and bear and the local demand for pples has always been supplied, and that as been the extent of the industry. Every- dy who has land has a few apple trees, and me have fair orchards of old bearing trees, ut it has been the rule to let the hogs have hat they want, only saving what is required r the Winter, and the remainder would ecay on the ground.

This year there is evidence that a number f orchards have been cared for with the ob- ect of making them produce a revenue. The ew boxes that could be had last Spring, sell- ng at $2 a box, served as a stimulant to the rchardists to look after what has been go- ng to waste.

In addition to caring for the marketable ruit, there is also some attempt at making omething out of the windfalls and other narketable fruit by working them into cider and vinegar. The new vinegar factory es- ablished here this season is now doing a big usiness on this kind of fruit. It has a force of men at work and is grinding up apples at the rate of 1000 bushels a day, and in this manner turning into a marketable product that much fruit that would otherwise go to waste.

California Citrus Fruit Market.

SAN FRANCISCO, Oct. 12.—(Special.)—Citrus fruits are quiet pending the opening of the orange season some two weeks hence. The new crop of oranges is looking well and is expected to turn out better than last year. The first shipments are expected from Porterville. A carload already sold ahead will be sent here when the fruit is sufficiently colored. The first new grape fruit from Oroville is now in the market, but too green to find custom. Old crop is still in ample supply. The local market for lemons is greatly depressed. The city demand is light and few outside orders are coming. In fact, San Francisco has lost importance as a lemon distributing center. Growers who are making direct shipments to other markets are responsible for this.

PORTLAND MARKETS.

Grain, Flour, Feed, Etc.

Trading in wheat is of only moderate volume, the firmness of Eastern and foreign markets making it difficult for dealers to buy as farmers are backward in selling on a rising market. The new price card on local cereal foods quotes advances in oat flakes, flaked wheat, rolled oats, oatmeal, buckwheat flour, hard wheat graham flour, rye flour and rye meal.

WHEAT—Walla Walla, 74c; bluestem, 78c; Valley, 79@77c.

SLAUGHTER OF VALUES

BAD HALF-DAY FOR INDUSTRIALS ON STOCK MARKET.

Steel Common and Preferred Touch New Low Records—Some Recovery in the Afternoon.

NEW YORK, Oct. 12.—The stock market spent a bad half-day up to noon, but during the latter part of the day a little better spirit showed itself and there was some recovery. There was a veritable slaughter of values among the industrials during the morning and it was very evident that the disfavor caused by the developments last week in the United States Shipbuilding receivership case is still an active force in the market. Industrial stocks were sold at violent declines with apparent discrimination, just as they were bought during the period of prosperity in the stock promotion progress.

It is not to be supposed that all of the present sellers of the securities, however, received their first enlightenment from the Shipbuilding muddle of the processes employed in the promotion, underwriting and flotation of industrial stocks during the last few years. Over-capitalization, over-valuation of constituent companies and market manipulation by managers for inside pools have been flagrantly in evidence and have been persistently pointed out from the outset. Now it is evident that speculators paid exaggerated importance to every suggestion in this direction, while it seems a warrantable presumption that the investing class is in a state of disgust which turns them from all consideration of the industrial stocks. Promotion deals which have been held up in a state of partial consummation, with the hope of later completion, are now regarded as hopeless failures.

The throwing out of collateral for loans of some of the securities in disfavor is another cause for their sacrifice in the market at wide declines and the prevailing ease of the money market and the growing confidence in its continuance do not avail to overcome the repugnance to this collateral for loans. In the early stock market there was additional depression in response to London selling on account of the acute stage in the dispute between Russia and Japan. The prevailing state of mind over the market has its greatest effect upon the United States Steel stocks and both touched new low records today, the common selling at 12½ and the preferred at 57½. The bonds were somewhat better supported.

The list of losses in the industrial department running from 2 to 12 points is too long to recapitulate. A number of inactive railroad stocks also suffered severely. Reports of large reductions in their working forces by the New York Central and Southern Pacific had a strong effect on sentiment following last week's reduction of the Steel corporation's working force. With the completion of the London selling better opportunity was given for the effect of the Government crop report issued Saturday to assert itself. The very sanguine view expressed by railroads of the outlook for traffic and their reports of the large current traffic also helped the recovery. The closing was about steady and slightly below the best.

Bonds were steady. Total sales, par value, $3,056,000. United States bonds were unchanged on the last call.

London Stock Exchange.

LONDON, Oct. 12.—Some anxiety regarding the course of events in the far East caused a weak opening of the Stock Exchange today. Consols were marked down a quarter point. The feature was the dealings in foreign governments' securities. There was a decline of 1 point in Japanese 5 per cents, and ¾ of a point in Japanese 4 per cents.

Americans were affected by the general depression here, as well as reports of trouble among the industrial trusts. They went down ½ to a point.

FAVORABLE TO BEARS.

Day's News Has Depressing Influence in Wheat Pit.

CHICAGO, Oct. 12.—The sentiment in the wheat pit was decidedly favorable to the bears and news in general had a depressing influence. Foreign markets did not respond to the advance here Saturday and this fact, together with the Government crop report issued Saturday, showing a larger increase than generally expected, caused lower prices at the start December being down 1¼@¾c to ¼@⅝c at 78¼@78c. After selling at 79¼c, December started downward, and with the exception of the slight rallies at different times, the trend was toward a lower level. After selling down to 78⅝@⅞c, December closed ¾c lower at 78⅛@¾c.

Corn ruled weak along with wheat, partly on the bearish crop report. After selling between 44½c and 45⅝c, December closed 1c lower at 44⅝@⅝c.

Oats declined with other grains on selling by commission-houses and local longs. December ranged between 37@44c and 38c, closing at a loss of ⅜c at 37¼c.

Smaller receipts of hogs at the yards were factors in creating steadiness in provisions and although the weakness in corn had some effect, prices were well maintained. The close was firm with January pork 12½c higher, January lard was 17½c and ribs 5@7½c higher.

The leading futures ranged as follows:

Northwestern Wheat Markets.

WALLA WALLA, Wash., Oct. 12.—(Special.)—Stock market influences have bulled local quotations by grain buyers to 60½@70c for bluestem and about 65½c for club, the highest for some time. Farmers did not respond at all to the rise, and are really making no quotations. Some of them talk 75c for bluestem and 70c for club. Others want 75c for club.

TACOMA, Oct. 12.—Wheat—Unchanged. Bluestem, 79c; club, 75c.

COLFAX, Wash., Oct. 12.—(Special.)—There has been no change in grain markets at Palouse country points since Saturday. Dealers are offering 62c for club and 66c for bluestem, while farmers are holding for higher prices. No sales were reported today.
